starQuick®

Quick, easy and reliable!

starQuick® clamps guarantee a reliable and time-saving pipe fixing. The starQuick® clamp is self-locking: the clamp closes when the pipe is pushed into it!

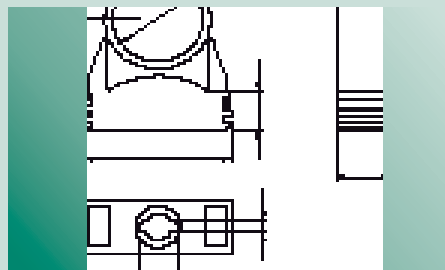

The starQuick® system contains clamps for fixing all types of pipe, from 1/4" through 2 1/2"

starQuick® clamps are suitable for sanitary, heating and electrical installations.

Features and benefits

- clamp closes by applying pressure to the pipe
- for full range of pipes sizes from 1/4" – 2 1/2"
- for sanitary, heating and electrical installations
- can be used in highly corrosive environments
- UV-protected, high resistance to many chemicals
- up to 1" can be tacked together for easier and faster installations

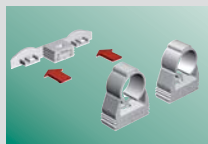

Fixing of two or more pipes

The starQuick® system offers various time- and cost-saving solutions for fixing of 2 or more

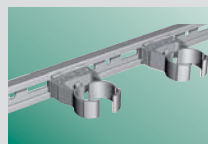

parallel running pipes. It is possible to tack more than one starQuick® clamp together.

Tacking

Duo-bracket

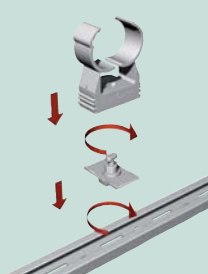

Fixing rail

Additional solutions include the starQuick® duo-bracket and fixing rail.

Extensive range of accessories

An extensive range of accessories makes the system complete. An example is the starQuick® adapter, for fixing the clamps to the special starQuick® rail.

Fixing to metal rail

The starQuick® system offers several solutions for fixing a pipe to metal rail (BIS RapidRail® or Strut).

State of the art material

starQuick® products are made from UV-stabilized polyamid PA6. This state of the art material offers a wide temperature range

and has a high resistance to many chemicals. Halogen-free and fully recyclable.
